

# PeercingForInclusion

14 - 19 SEPTEMBER 2009  
Greece

*A training course to get you going and start your own peer-inclusion projects*

## Vision - Creating Space for Growth

"According to experience, if young people take responsibility for their own learning out of their own initiative, then the results are tangible and immediate. This requires us, youth workers, to be able to question our position as the one who has the answers, and to be able to create space for personal growth in our work with young people."

## Aims of this Training Course

- \* Promoting social inclusion and the personal development of young people by facilitating the creation of European Voluntary Service and/or peer-education projects within the YiA-programme
- \* We will support and enable you to develop peer-projects that empower youngsters (with fewer opportunities) to participate in short or long-term European Voluntary Service projects
- \* We will also establish a support-system through various actions that provides a long-term frame for the peer-projects developed during the whole training-process
